

6 Tips for Travel During the Holidays

 money4youpaydayloans.com/6-tips-travel-holidays/

Do you stress and worry about traveling during the holidays? Do you wonder how you will be able to afford to see your loved ones? [Money 4 You Payday Loans](#) is here to help. With a little advance planning, ***you can enjoy safe, hassle-free holiday travels without breaking the bank.*** Here are a few tips we have put together for you to save money and stress while you travel for the holidays.

- **Avoid Flying on Peak Travel Dates.** Don't fly the day before Thanksgiving or the Sunday after. Thanksgiving day is often the best day to get good travel rates as most people choose not to fly on that day. For Christmas, avoid flying in on Christmas Eve. Try to avoid flying on weekends, as that is when most people fly so that they can get back home to work. Try putting different dates into a travel search engine and compare costs that way. Pick whatever is cheapest and works best with your schedule.
- **Pack Your Own Food.** With long delays, big lines at check-in and security, you are probably going to get hungry at some point while waiting for a flight. Airport food is very expensive. Bring your own snacks on board and save a bundle.
- **Try a Hotel Alternative.** Hotels can be expensive, small, and noisy. Why not try a home rental instead through an online agency such as [Airbnb](#) or [FlipKey](#)? For much less money you can have your own house or condo with all the amenities that make a place feel just like home. You can even save money by having all the kitchen utensils at your disposal to make your own food instead of having to eat out.
- **Prepare Your Vehicle for a Road Trip.** Make a trip to your local mechanic and ask him or her to do a checkup on your car before you leave. Get an oil change and have your tires rotated. Make sure your windshield wipers are in good working condition. Pack a winter emergency kit in your car that includes a first-aid kit, warm weather blankets, road flares, flashlights, snow chains and food.
- **Reduce the Sensory Overload.** Traveling can already be a stressful experience. Eliminate extra noise with earplugs, whether you are on a plane, bus, or train. Also, bring an eye mask so you can get some much needed sleep en route to your destination. You can make much better travel decisions when you are not experiencing sensory overload.
- **Leave Early.** Expect long lines, heavy traffic, flights to be canceled and for things to go wrong at check-in. Leave at least a couple hours earlier than required so you have time to deal with all these possible snags in your plan. Then you will be prepared for whatever comes your way.
